

KOS (knock-out sleeve) Roxtec

Manchon knock-out pour maintenir l'étanchéité avant l'acheminement des câbles et des tuyaux.

Le KOS (knock-out sleeve) Roxtec garde votre bâtiment au sec pendant et après la construction, et offre une capacité de réserve pour les besoins futurs. Il se fixe et se coule facilement dans des structures de différentes épaisseurs. Il constitue une fermeture étanche jusqu'à ce que sa plaque d'obturation soit enfoncee pour y faire passer des câbles et des tuyaux. Les KOS ont une fonctionnalité intégrée permettant de les raccorder entre eux, optimisant ainsi l'espace. Une fois les câbles ou les tuyauteries acheminés, ils doivent être étanchés avec des solutions souterraines Roxtec UG™ de la taille correspondante.

- Léger
- Surface optimisée
- Installation facile et rapide

Caractéristiques du produit

Etanche à l'eau Etanche au gaz IP/UL NEMA

Structure d'installation

Béton
