

Bague coupe-feu Roxtec Sleeve-it™

Bague coupe-feu pour tuyauteries en plastique uniques.

La bague coupe-feu Roxtec Sleeve-it™ est une solution légère ouvrable pour tuyauteries en plastique uniques utilisées dans les secteurs classés résistants au feu. Le cadre en métal du passage est soudé par points directement à la structure et ne nécessite pas de manchon. Le boîtier en acier inoxydable contient des couches d'un matériau intumescent qui réagit à la chaleur pour protéger le passage une fois que la tuyauterie en plastique commence à se ramollir. La solution étanche est ouvrable et peut être installée après la pose du système de tuyauterie. Elle est ainsi idéale pour les projets de rénovation.

- Léger
- Surface optimisée
- Installation facile et rapide
