

Roxtec SRC r20 doorvoering

Doorvoering met metalen frame voor draagconstructies.

De Roxtec SRC r20 is een kabel- en leidingdoorvoering met afgeronde hoeken om spanningsconcentratie en het risico van barsten rondom het frame te verminderen. Het metalen doorvoeringsframe is verkrijgbaar in verschillende materialen en in een enkele of verschillende openingscombinaties. De afdichting wordt op de constructie gelast. De standaard afdichtmodulen kunnen worden aangepast aan kabels en leidingen van verschillende diameters en kunnen worden gebruikt om reservecapaciteit op te nemen in de doorvoering.
