

Roxtec SRC r40-gennemføring

Gennemføring med metalramme til lastbærende konstruktioner.

Roxtec SRC r40 er en kabel- og rørgennemføring med afrundede hjørner for at reducere spændingskoncentration og risikoen for revner omkring rammen. Metalrammen fås i forskellige materialer og med en enkelt eller forskellige kombinationer af åbninger. Tætningen svejses på konstruktionen. Standardtætningsmodulerne kan tilpasses kabler og rør af forskellig størrelse og kan bruges til indbygget reservekapacitet i gennemføringen.

- Nem at vedligeholde og inspicere
