Roxtec SK EMC transit

Transit for EMC with deep frame for angular attachment.

The Roxtec SK EMC is a cable and pipe transit ensuring electromagnetic compatibility. The transit frame has extended depth and is available in different materials and in a single or various combinations of openings. The metal frame is attached through welding and used for an angular attachment to accommodate stiff cables that do not pass in a straight angle through a deck or bulkhead. The seal allows for an increased distance between the packing space and the structure. There is a choice between Roxtec ES modules for electromagnetic shielding and PE modules that protect against conducted disturbances. The modules adapt to cables and pipes of different sizes and can be used to build in spare capacity in the seal. Roxtec EC (electrical continuity) test sticks are available to help indicate the electrical performance of the transit installation.

◉ Easy to maintain and inspect

Product characteristics

| Fire rated | Watertight | Gas-tight | EMI protection |

Structure of installation

Metal

Mounting type

Welding

Ratings & certificates

Fire

◉ A-CLASS according to IMO 2010 FTP Code

◉ H-CLASS according to IMO 2010 FTP Code + HC fire load curve

Tightness

◉ Gas: 2.5 bar (catastrophic)

◉ Water: 4 bar (catastrophic)

Supports

◉ Electromagnetic shielding

◉ Potential equalization

Frame dimensions

in/lbs

The frame variants below are a limited selection. For the full range of frames and configurations, please visit roxtec.com.

Product	Frame openings	Packing space	External dimensions WxHxD	Aperture dimensions w x h	Weight	Art. no
