

Roxtec B Ex-gennemføring

Ex-klassificeret med en fleksibel ramme, der muliggør forskellige ramme-kombinationer.

Roxtec B Ex er en multikabel- og rørgennemføring, der er klassificeret til Ex e- og Ex tb-områder. Metalrammen kan åbnes og boltes sammen til forskellige størrelser og kombinationer, og støbes derefter ind i konstruktionen, enten til retrofit omkring eksisterende kabler/rør eller til brug i nye konstruktioner. Roxtec Ex-tætningsmodulerne kan tilpasses kabler og rør i forskellige størrelser og kan bruges til at indbygge ekstra kapacitet i tætningen.

- Perfekt til eftermontage

Produktgenskaber
