

Roxtec SK transit for plastic conduits

Fire rated transit for plastic conduits.

The Roxtec SK for plastic conduits is a transit for welding onto the structure where there is a need for covering the full depth of the opening and a fire rating. It protects all cables and conduits passing through the floor structure from wear and damage and provides a closed and safe space in floor applications. The deep rectangular steel frame allows for routing of conduits with high cable density. The Roxtec RM PPS sealing modules for plastic conduits are marked with corresponding NW size number to simplify installation. RM PPS modules can be combined with regular RM modules for a mix of conduits and cables in the same frame.

- Easy to maintain and inspect
- Provides built-in spare capacity

Product characteristics

Fire rated

IP/UL NEMA

Structure of installation

Metal

Mounting type

Welding

Ratings & certificates

Fire

- E/EI rating according to EN 45545 E60

Tightness

- IP 66/67

Frame dimensions

mm/kg

The frame variants below are a limited selection. For the full range of frames and configurations, please visit [roxtec.com](https://www.roxtec.com).

Product	Frame openings	Packing space	External dimensions WxHxD	Aperture dimensions w x h	Weight	Art. no
SK 6x1 ALU	1	120 x 180	140.5 x 238 x 100	143(+1/-1) x 240(+1/-1)	1.8	5SK0000004854
