

Roxtec FlamePlus™ gjennomføring

Lettvektig gjennomføring med innebygd knockout-funksjon

Roxtec FlamePlus™ er en multikabelgjennomføring for bolting på forskjellige strukturer. Rammens tilpasningsevne forenkler håndtering og logistikk, og den lettvektige utformingen gjør den ideell for sandwichpaneler. Den brede flensen gir klaring mellom bolter og rammeåpning for å minimere risikoen for sprekker når den boltes til betong- eller murvegger. Den innebygde knockout-platen gir inntrengingsbeskyttelse under og etter byggefasen.

Tetningsmodulene tilpasser seg kabler i forskjellige størrelser og kan benyttes for å lage reservekapasitet til senere installasjon.

- Lettvekt
- Tetthet gjennom konstruksjonsfasen
- Kan åpnes
- Modulær utforming
