

Solution d'étanchéité Roxtec RS PPS/S avec SL GRP

Solution d'étanchéité légère pour tuyau en plastique, à installer unilatéralement dans les structures composites.

La Roxtec RS PPS/S avec SL GRP est une solution d'étanchéité dédiée aux tuyaux en plastique dans les structures composites résistantes au feu, telles que les ponts et cloisons étanches. Cette solution d'étanchéité bloque entièrement l'eau, la fumée froide et le gaz. En cas d'incendie, elle se dilate afin que la structure reste résistante au feu. Cette solution d'étanchéité s'installe unilatéralement et a couches pelables, ce qui lui permet de s'adapter à différents diamètres de tuyaux. La douille GRP est laminée sur la structure.

- Léger
- Installation facile et rapide

Caractéristiques du produit

Coupe-feu

Étanche à l'eau

Étanche au gaz

Structure d'installation

Composite

Type de fixation

Laminage

Classements et certificats

Feu

- CLASSE A conformément au code FTP IMO 2010

Étanchéité

- Gaz: 1 bars (catastrophique)
- Eau: 2 bars (catastrophique)
