

Roxtec RS tætning med SLFO/Ext

Tætning for gennemføring til et enkelt kabel eller rør.

Roxtec RS med SLFO/Ext er en tætning med hylster til enkeltkabler eller rør. Gennemføringen har to halvdele med aftagelige lag, så den kan tilpasses kabler og rør af forskellig størrelse. Gennemføringens design gør den nem at montere omkring eksisterende kabler eller rør. Det åbningsbare sleeve med en bred flange overholder minimumskantafstanden mellem bolt og åbning og kan boltes fast til ujævne strukturer såsom beton.

- Perfekt til eftermontage
- Kan tilpasses til kabler og rør af forskellig størrelse
- Kan åbnes
