

Roxtec RS-tätning med SLFO/Ext

Genomföringstätning för enstaka kablar eller rör.

Roxtec RS med SLFO/Ext är en tätning med hylsa för enstaka kablar eller rör. Tätningen har två halvor med avskalbara lager som gör att den kan anpassas till kablar och rör av olika storlekar. Genomföringens design gör den enkel att installera kring befintliga kablar eller rör. Den öppningsbara hylsan har en bred fläns för att uppfylla minimiavståndet till kant mellan bult och öppning och skruvas fast i ojämna strukturer som betong.

- Perfekt för eftermontering
- Anpassningsbar till kablar och rör med olika dimensioner
- Öppningsbar
