

Roxtec GOH FL100 doorvoer

Deelbare doorvoer voor bestaande kabels, inclusief een brede flens die geschikt is voor bevestiging met bouten op betonconstructies.

De Roxtec GOH FL100 is een deelbaar frame dat kan worden geïnstalleerd om reeds doorgevoerde kabels en leidingen af te dichten. Het rechthoekige stalen frame heeft een 100 mm brede flens met boutgaten dicht bij de rand van de flens, voor een correcte bevestiging en om het risico op scheuren te voorkomen. De doorvoer is de juiste keuze bij boutbevestiging op beton.

- Ideaal voor retrofittoepassingen
- Kan na installatie worden geopend

Producteigenschappen

Brandvertragend
