

# Roxtec knock-out frame transit

Lightweight cast-in transit

The Roxtec knock-out frame (KOF) is a lightweight cast-in multi-cable transit that keeps your site dry during and after construction. The built-in knock-out plate maintains an environmental seal until it is knocked out prior to cable routing and installation of sealing components. The standard Roxtec RM sealing modules are adaptable to cables of different sizes and can be used to build in spare capacity in the transit.

The KOF with plate can also provide spare capacity for future needs. By adding KOF adapters, the overall frame depth can easily be increased in steps of 50mm to fit walls of various thickness and at the same time eliminate the need for casting molds. The KOF has an integrated clip-together feature which provides mechanical connections to form space efficient clusters.

- Corrosion resistant
- Light-weight
- Tightness during building phase

### Product characteristics

Fire rated

IP/UL NEMA

### Structure of installation

Concrete

### Mounting type

Casting

## Ratings & certificates

### Fire

- E/EI rating according to EN 13501

### Tightness

- IP 68

## Frame dimensions

in/lbs

The frame variants below are a limited selection. For the full range of frames and configurations, please visit [roxtec.com](https://www.roxtec.com).

Product	Frame openings	Packing space	External dimensions WxHxD	Aperture dimensions w x h	Weight	Art. no
KOF 6x1 D=100	1	4.724 x 7.087	8.898 x 12.756 x 3.937	7.362 x 11.22	1.3	249058
