

Roxtec knock-out frame transit

Lagani, udubljeni prolaz

Roxtec okvir s izbijajućom pločom (KOF) je lagani lijevani višekabelski prolaz koji održava vaše gradilište suhim tijekom i nakon izgradnje. Ugrađena ploča za izbijanje održava brtvu protiv prodora sve dok se ne izbije prije usmjeravanja kabela i ugradnje brtvenih komponenti. Standardni Roxtec RM brtveni moduli prilagodljivi su kabelima različitih veličina i mogu se koristiti za osiguranje rezervnog kapaciteta u prolazu. KOF s pločom također može osigurati rezervni kapacitet za buduće potrebe. Dodavanjem KOF adaptera, ukupna dubina okvira može se lako povećavati svakih 50 mm kako bi odgovarala zidovima različitih debljina i istovremeno izbjegla potreba za kalupima za betoniranje. KOF ima integriranu značajku međusobnog spajanja koja omogućuje mehaničke veze za formiranje kompaktnih klastera.

- Otpornost na koroziju
- Lagano
- Nepropusnost u fazi gradnje

Karakteristike proizvoda

Vatrootpornost

IP/UL NEMA

Struktura instalacije

Beton

Vrsta montaže

Lijevanje

Klase i certifikati

Požar

- Razred E/EI u skladu s normom EN 13501

Nepropusnost

- IP 68

Dimenzije okvira

mm/kg

Varijante okvira u nastavku ograničen su izbor. Za cijeli raspon okvira i konfiguracija posjetite [roxtec.com](https://www.roxtec.com).
