

GK Firestop sealing kit

Area efficient transit for cables, cable bundles or busbars.

The GK Firestop sealing kit is for use in sleeves in above waterline applications on ships and vessels. It combines cold smoke tightness with fire prevention as its integrated intumescent material expands to close the void in case of fire or a rise in temperature to over 150°C. The kit can be installed in a wide range of circular or oval sleeves, and it does not require any additional insulation for A-60 or A-0 applications.

- Area efficient
- Quick and easy to install

Product characteristics

Fire rated

Structure of installation

Metal

Mounting type

Bolting

Welding

Existing sleeve

Ratings & certificates

Fire

- A-CLASS according to IMO 2010 FTP Code

Sealing components
